Seattle, Washington 98108

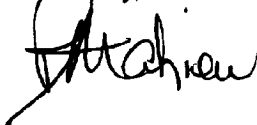

Dear Cynthia:

It was our pleasure to get to meet you and have a small amount of time to chat during your emergency exercise this past Saturday, October 25. I realize that you had a lot to take in and observe during the exercise, not to mention the steady "up-hill" learning curve that you are already climbing. Your concentration and memory banks must either be phenomenal or in "overwhelm" at this point. Congratulations! You are doing a great job.

Because realistic footage is not easy to obtain, we appreciated your willingness to provide Peregrine with two passes in order to be at the exercise. We will also be more than pleased to provide you with a copy of the film after we have gotten it all developed. Because we are still in the "beta testing" stage of our marketing and want our video to be viewed only by specific individuals, we would appreciate your viewing it and returning it as soon as you have finished.

We hope to see you again in the near future. Thank you.

Sincerely,

D Mahieu  
Director
